Foreword

This publication is one of a monthly series containing data on medical assistance payments made under Title XIX of the Social Security Act (Medicaid). Information is compiled and reported by each State and/or jurisdictional agency administering an approved Title XIX program on Federal Report Form SRS-NCSS-120: Monthly Statistical Report on Medical Care. Currently there are 54 such programs; 49 States, the District of Columbia, Guam, Puerto Rico and the Virgin Islands. Arizona has not initiated a Title XIX program and Massachusetts has a separate State agency for blind recipients.

Prior to January 1974, similar data were collected for the midmonth of each quarter and midmonth quarterly reports have been published in this series since May 1967.

Reports for the months of March, June and September will include quarterly summary data and in addition, reports for December will include annual summary data.

Information presented includes medical payments by form of payment, payments to medical vendors by type of service, number of recipients in whose behalf medical vendor payments were made and data related to screening services under the Early and Periodic Screening, Diagnosis and Treatment Program.

This report was prepared by Barbara Holmes and Annie J. Mayfield under the supervision of Henrietta Duvall, National Center for Social Statistics.

Introduction

Medicaid (Title XIX of the Social Security Act) is an assistance program designed to provide medical assistance to specified groups of needy individuals. Such persons are classified into two main groups according to their maintenance assistance status, (1) those who are authorized to receive money payments for their basic necessities under public assistance programs such as Supplemental Security Income and Aid to Families With Dependent Children, and (2) those who are not receiving maintenance assistance payments even though they may, in fact, be eligible. There are extensions of the maintenance assistance status categories but uniform procedures do not exist for reporting such data. There are four basic eligibility requirements for medical assistance: (1) age 65 and over; (2) blindness; (3) permanent and total disability; and (4) membership in families with dependent children. In addition, some States have exercised the option of including other needy persons who do not fall into any of the above categories. Such recipients are classified as 'Other title XIX' recipients in the accompanying tables. Also, 'essential persons' (usually spouses) also may be eligible for medical care. For money payment recipients, these persons usually are classified according to the same eligibility factors as the recipient spouse.

Generally, payments are made out of Medicaid funds to vendors (providers) of medical services, directly or through a fiscal agent as the direct result of claims filed by the provider after services are rendered. Data presented in this publication are generated as an adjunct to the Medicaid claims processing and payment operation. Thus, information is based on bills paid and not services rendered during the month. Consequently, the data provided through this process are not professed to represent a true picture of the incidence of illness among Medicaid eligibles and are subject to fluctuations unrelated to the provision of medical care. Monthly data are collected and presented to meet pressing current demands for minimum information on medical care financed under title XIX. However, States are required to provide more significant and detailed annual data on the numbers of persons receiving medical services, the number of units of such services and the corresponding amounts of payments.

Except for payments, data related to screening services are not necessarily generated through the claims payment process. Numbers of individuals screened are usually based on services actually rendered during the report month. As a result, payments reported for screening services may be unrelated to persons receiving such services.

HIGHLIGHTS

Medical Assistance (Medicaid) Financed Under Title XIX of the Social Security Act - April 1974

A total of 999.4 1/ million dollars was paid out of Title XIX funds in April 1974. An estimated 8.6 2/ million persons had medical vendor payments totalling 972.7 1/ million dollars made in their behalf. An additional $2.5 million in vendor payments were made for screening services under the Early and Periodic Screening, Diagnosis and Treatment Program (EPSDT). There were concurrently 284,686 persons enrolled in Health Maintenance Organizations whose premiums were paid out of Title XIX funds.

Persons Served

More than half (54.3 percent) of the recipients for whom vendor payments were made were members of families with dependent children. AFDC children under 21 and other Title XIX recipients under 21 represented about 35 percent of recipients. Twenty-four percent of the recipients were eligible on the basis of age 65 and over. Seventy-four percent of the medicaid recipients were also recipients of maintenance assistance in the form of money payments. Among members of AFDC families, eighty-nine percent of the recipients were also receiving money payments.

Amounts of Payments by Groups of Persons Served

Thirty-six percent of payments to medical vendors were for persons whose eligibility was based on age 65 and over. Thirty-two percent were on behalf of members of AFDC families. The proportion of payments (23.3 percent) on behalf of permanently and totally disabled recipients was greater than the proportion of medical payments for either adults or children in AFDC families. Among AFDC recipients, eighty-four percent of payments for medical care were made on behalf of persons also receiving money payments, however, for the aged 65 and over, seventy-two percent of medical vendor payments were on behalf of persons who were not receiving maintenance assistance. Medical vendor payments for non-money payment aged recipients accounted for more than one-fourth (26.4 percent) of the total vendor payments. It should be noted that a large amount of these payments is probably made to medical institutional facilities which provide the basic necessities (food, shelter, etc.) and thus the recipients are not authorized for money payments for such needs.

Payments by Type of Service

Seventy percent of the medical vendor payments were made for inpatient services, i.e., hospitals (30.9 %), skilled nursing facilities (19.1%), and intermediate care facilities (19.5%). Among other services, physicians' services and prescribed drugs represented 11.0 and 6.2 percent of total payments, respectively.

Screening Services

Forty-nine States reported 143,792 children screened under the Early and Periodic Screening, Diagnosis and Treatment Program. Sixty-one percent of the children screened were six years of age and older. Fifty-three percent of children screened had referrable conditions uncovered and seventy-four percent of those with conditions uncovered were referred for diagnosis and/or treatment.

1/ Includes total payments of $31,778,476 for Ohio, an estimated total of $21,000 for Guam, and vendor payments of $31,355,899 for Ohio and an estimated $17,600 for Guam.

2/ Includes estimates for Colorado, Guam, Massachusetts, New Hampshire and Ohio, which were extrapolated from previous reports.

Annotations

1. The following definitions apply to symbols appearing in the detailed tables:

   --- indicates no data reported.

   *** indicates that the percent was not computed because the base was too small.
   Z indicates that the percent was less than 0.05.

2. Arizona has no title XIX program and is excluded from the tabulations.

3. Guam did not submit a report for April and is excluded from the tabulations. The Ohio report was received too late to be included in the computer-generated tabulations.

4. Colorado and New Hampshire did not report recipients and payments by maintenance assistance status and basis of eligibility of recipients and are excluded from all applicable tables.

5. Massachusetts reported recipient data for the blind only.

6. In addition to Guam, Ohio, Colorado, New Hampshire and Massachusetts; Nevada, Oregon, Pennsylvania, and Utah are excluded from tables 10-13 because children and adults in AFDC families were not reported separately. Connecticut, Illinois, Kansas, Minnesota and West Virginia were able to report AFDC recipients separately but were unable to differentiate medical vendor payments between adults and children in AFDC families. These States are excluded from the total percentage computation in Table 11.

7. Idaho reported persons receiving SSI payments without a State supplement and the payments for medical services for such persons under "money payments not authorized" in Tables 4, 6, 7, 8, 9, 12 and 13.

8. Minnesota included recipients for whom premium or per capita payments were made to health maintenance organization and such per capita amounts in the data in Tables 2-14.

9. Pennsylvania did not differentiate other title XIX recipients by age and is excluded from Table 14.

Annotations--continued

10. Utah reported concurrent SSI recipients eligible on the basis of age 65 or over, blindness, and disability and the medical vendor payments made in their behalf under money payments not authorized in Tables 4, 6, 7, and 8.

11. In California, there were 86,224 persons in AFDC families for whom it was unknown whether they were children or adults. These recipients and the $444,323 in medical vendor payments were distributed in the same proportions as the known amounts.

12. For Connecticut, total medical vendor payments excludes $317,283 which cannot be distributed by basis of eligibility and maintenance assistance status of recipient. Similarly, the data for Vermont exclude $12,589 for family planning. Table 3.

13. Georgia's premium payments into the SSA system for aged recipients, include premium payments for the disabled.

14. Data were partially estimated for Michigan, New York, and North Carolina. Recipient counts was partially estimated for Hawaii.

15. For North Carolina, other title XIX recipients under age 21 and the vendor payments made in their behalf are included with data for children in families with dependent children.

16. Nevada does not have a money payment program for the disabled and does not now supplement Supplemental Security Income payments for such recipients.

Annotations specific for Table 5 (Type of Service)

17. Data were not available on medical vendor payments for family planning for Alaska and Rhode Island. In addition, for Rhode Island, there were no payments made during the month to health maintenance organizations.

18. Family planning is included in other care for Virginia.

19. For Connecticut, other care includes other practitioners' services, clinic services, laboratory and radiological services, home health services, and family planning services. Vendor payments for general hospital include $277,501 paid to mental institutions.

Annotations specific for Table 5 (Type of Service)--continued

20. For Florida, other practitioners' services include optometrists and opticians; clinic services include speech and hearing centers and other care includes hearing aid suppliers.

21. For Kansas, medical vendor payments for clinic, laboratory and radiological, and family planning services were not available and are presumably included in other type of services. There were no payments to mental hospitals.

22. Missouri reported optometric service under other practitioners' services and ambulance service under other care.

23. For New Jersey, vendor payments for mental hospitals include $3,597,813 in retroactive payments.

24. For New York, other care includes laboratory and radiological services.

25. For New Mexico, vendor payments for general hospital services include $117,401 in retroactive adjustments.

26. For Kentucky, vendor payments for general hospital and nursing home services include reimbursable cost adjustments.

27. For Montana, total payments include $732 in vendor payments which cannot be distributed by type of service.

28. For North Carolina, vendor payments for physicians' services include optometrists and opthamologists; other practitioners' services include optical and chiropractor services; and, other care includes ambulance and hearing aids.

29. For North Dakota, vendor payments for skilled nursing facility services include contract care.

30. For South Carolina, vendor payments for nursing home services include $20,810 paid to State mental institutions and general hospital services include $8,366 to State tuberculosis sanitarium.

Annotations specific for Screening Tables 15-20

31. States omitted from tables did not report on screening services for April 1974.

32. For California, totals do not include expenditures of $1,566,902 for 85,239 individuals who received comprehensive physical examinations specifically identified as such on claim forms and paid for by title XIX.

33. For Colorado, EPSDT screening data excludes payment to Colorado Dental Society. Detailed information was not available.

34. For Florida, screening data were partially estimated.

35. For Georgia, EPSDT screening data related to individuals with specified conditions are excluded from the tabulations.

36. Screening data were estimated by North Dakota. Data for children screened with no referrable conditions uncovered were not available.

37. Screening data for Rhode Island do not include payments for 74 newborns. Payments for these individuals are reflected in physicians' and hospitalization services.

38. Totals include expenditures of $1,258,366 which are not distributed by age: Idaho, $15,243; Georgia, $93,116; Kansas, $3; Michigan, $501,987; New York, $45,225; Pennsylvania, $18,089; Texas, $583,937; and Vermont, $766.

39. In Indiana, the 875 persons screened during the month with referrable conditions uncovered were not referred for treatment because they were either currently receiving treatment for the condition or parent did not desire treatment. Similarly, the 8,351 persons not referred in Texas received immediate remedial or prophylactic care by the person performing the screening.

40. For Kansas, screening data include one individual with an expenditure of three dollars, who is in on-going care. The age of this individual is unknown.

41. Payments for screening services were not reported by the District of Columbia, Illinois, Maryland, Montana, New Hampshire, Puerto Rico, South Dakota, and the Virgin Islands.
